RWC

HWS-L

FEATURES

- RSE Series - Black Textured Wood, 19" Wall or Desk Rack
- Made from 5/8" medium density particle board, high pressure black laminate.
- Packed flat for economical shipping.
- All edges are banded.
- Two depths 16" and 18".
- The 16" depth is offered in these rack space heights of 4, 8, 12, 16, and 20.
- The 18" depth is offered in these rack space heights 12, 16 and 20.
- Pre-installed 11-gauge rack rail tapped at 10-32, the rail is installed 1/2" from the front of the rack, with a second row of predrilled marks 1" behind this row for recessed rail mount. An example would be to add a front door.
- Side panels are not removable and do not have electrical knock-outs, in order to gang these units an access port must be cut.
- Hardware kit with one allen is included for easy assembly.

ARCHITECTS AND ENGINEERS SPECIFICATIONS

The RWB wall or desk mounted rack is made from wood, and has a black slightly textured Melamine finish. This rack is available in a variety of configurations, the chart above will help you to add the proper sizing into this text. This rack is available as a frame only, back is always open unless mounted to a wall. The front rack rails are pre-threaded. To mount this rack to the wall, use the RSE-S optional AEG Quick install mount. This rack shall accept AEG rack accessories, that are designed for 19" mounting centers. This rack comes flat packed, some assembly is required.
