

# Wall Rack

## RWB Series

Wall Rack, made from steel, for 19" equipment, Removable side panels, Plexiglas or steel front door

### FEATURES

- **RWB Series - Textured Painted, 19" Wall Rack**

The RWB Series of wall mounted racks is designed to hold up to 250 lbs of equipment. It comes in various configurations, as a frame only, a frame with side panels, a frame with side panels and a steel front door, or a frame with side panels and a tinted Plexiglas front door.

Both front doors are equipped with a lock, the side panels are held into place with spring latches, a lock kit is available. An optional 4" fan (AEG F4) can be mounted to the top of this rack, fan guard is built in. Power bar mount is supplied if requested. Top and bottom have a removable rectangular cover to allow wiring or k/o attachments for conduit.

This rack has plenty of front and side vents. Clip nuts are provided, and should be enough to do the whole rack. If not, nuts are available in packs of 50.

This rack bolts directly to 16" wall studs (hardware not included). You can also purchase our quick install cradle which can be pre-installed and wired, pre configure the rack at the shop, then bolt the two pieces together at site. There is plenty of access to the inside of the rack from the removable side panels.

## RWB Series

19" Wall mounted Rack, all steel construction, fully assembled or sold as kits, commercial grade.

### ARCHITECTS AND ENGINEERS SPECIFICATIONS

The RWB wall mounted rack is made from steel, and has a black slightly textured powder coat finish. This rack is available in a variety of configurations, the chart above will help you to add the proper sizing into this text. This rack is available as a frame only, frame plus side panels, frame plus side panels and front steel door, or frame with side panels and front tinted Plexiglas door. Both optional front doors are reversible. A top mounted 4" fan is optional, and has the fan guard built in. The front and rear rails in this rack accept the 10-32 clip nuts that are included. To mount this rack to the wall, either use the 16" centered holes in the back panel (hardware not included) or use the optional AEG Quick install mount. This rack shall accept AEG rack accessories, that are designed for 19" mounting centers. This rack has removable side panels to allow for easy and quick access to the wiring of the rack. This rack is fully assembled, or add the part suffix "-KIT" to purchase unassembled.
