

RR / RRF Series Rack Rail

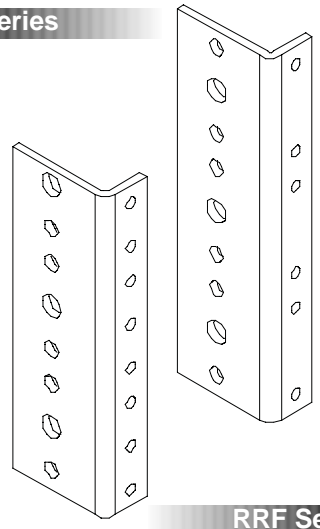

Regular and Full Hole Rack Rail

RR Series

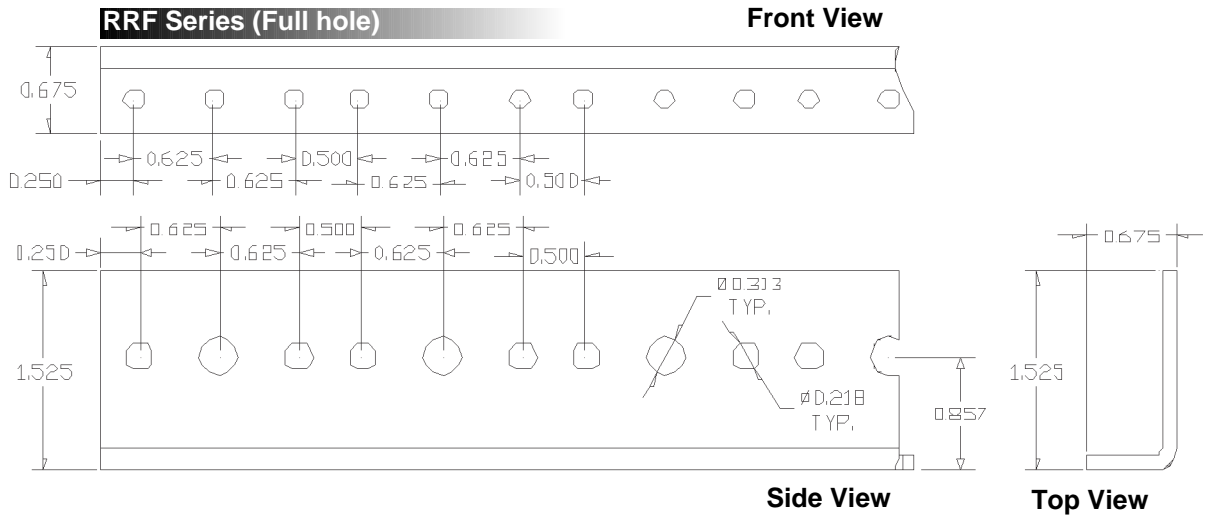

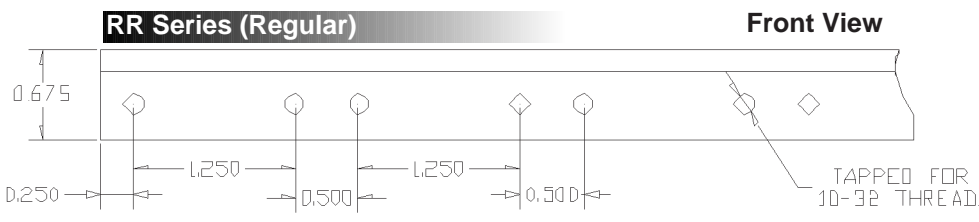

This regular hole rack rail is made of 0.120" thick (11-gauge) steel to provide strength when mounting equipment into racks. Mounting holes are tapped for 10-32 threads. This rack rail is designed for 19.125" wide rack openings and other mounting applications. The rack rail is sold in pairs, and comes in a durable black powder coat finish.

Note: Cutting service is available.
Cutting per pair - **Part #: CUT**

RR Series

RRF Series

RRF Series

This full hole rack rail is also made of 0.120" thick (11-gauge) steel for rigidity. Mounting holes are tapped for 10-32 threads. This rail is suited for 19.125" wide rack openings and other mounting applications. The rack rail is sold in pairs, and comes in a durable black powder coat finish.

Note: Stock RRF comes in one length of 45 rack space (78.75" in length). Cutting service is available.
Cutting per pair - **Part #: CUT**

Stock Sizes

Part #	Length	Racking Height
RR2	3.50"	2 space
RR4	7.00"	4 space
RR6	10.50"	6 space
RR10	17.50"	10 space
RR12	21.00"	12 space
RR14	24.25"	14 space
RR16	28.00"	16 space
RR18	31.50"	18 space
RR21	36.75"	21 space
RR27	47.25"	27 space
RR45	78.75"	45 space
RRF45	78.75"	45 space

To order any of these rails use these part numbers:

RR-XX	RRF-XX
(XX = rack space height)
