G51W

Square Acoustic Baffles for 8" Loudspeakers

G51W

SPECIFICATIONS

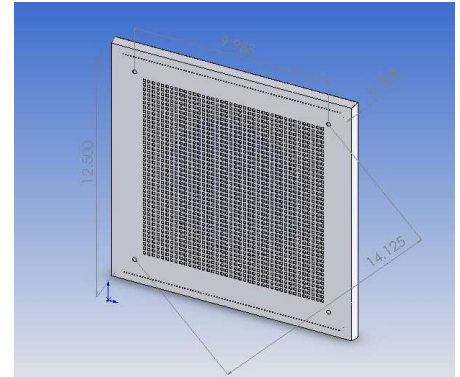

Back-boxes that work with these baffles:

Standard Screw Mount: (Special Order, Minimum qty)
E20, SE20SB, E19, E32

Note: All models are equipped with welded speaker mounting studs unless otherwise noted.

All baffles can be custom painted to match a particular colour scheme. Send us a colour match and we would be pleased to quote you.

This baffle is designed to enhance base response of your loudspeaker. It is recommended to install this with a deep back box for best results.

ARCHITECTS AND ENGINEERS SPECIFICATIONS

MODEL G51W

The flush ceiling baffle shall be AEI Model G51W. The baffle shall be fabricated from two pieces of steel for the front part of this two piece baffle. One piece will mount the speaker to what acts as a bass reflex. The finish on the front baffle is semi-gloss white powder paint, while the backing plate is powder painted in semi-gloss. The unit shall measure 31.75cm (12-1/2") square and 1.3cm (1/2") deep. The 8 inch loudspeaker shall mount to the backing plate. This unit is a two piece baffle, welded together to produce an attractive baffle with enhanced strength, along with a backing plate. Four holes shall be provided to mount the baffle to AEI Models E19, E20, E31, E32, SE20 and SE20SB enclosures.
