### ARCHITECTS AND ENGINEERS SPECIFICATIONS

#### MODEL G71W

The flush ceiling baffle shall be ARNSCOTT Model G71W. The baffle shall be fabricated from one piece of steel, finished in semi-gloss white powder paint and shall measure 16.2cm (6-3/8") square and 0.8cm (5/16") deep. A 4-1/2 inch loudspeaker shall mount to two concealed studs, making a very clean installation job. This unit can be used for recessed mounting only. Two holes shall be provided to mount the baffle onto ARNSCOTT Models E15, E15-4, and E15-6L enclosures. This square baffle shall be used wherever 4 1/2 - 5" speaker baffles are required for economical and quick installation.
