SPECIFICATIONS - WALL PLATE SELECTION CHART

AEG L-Pads are available in mono or Stereo, 15, 50 and 100 Watt configurations. These units are designed to work 8-Ohm audio systems. 'R' in the part number indicated wire-wound volume controls - Not L-Pad. 'S' in a part number indicates stereo. All units are mounted on stainless steel wall plates except the "DW" Series, which are on a "D" type plate. For controls sold separately, see the chart Below marked "Controls Without Plates". Note, L-Pads will be changing to a newer round style in 2005/2006 and plugable terminal blocks are to be added. L-Pads are all high quality wire wound type.
