Loudspeaker Devices

572W

Self Contained Weather Resistant mini-speaker system

FEATURES

- For use in, restaurants, churches, auditoriums, boardrooms, retail stores, amusement parks, zoos, night clubs, bars, retail stores, airports, train depots, coliseums, factories, ice rinks, residential background music or wherever an application for background music or paging system is required.
- Finished in white high quality ABS plastic. The metal mesh grill is painted to match.
- This self contained speaker unit is equipped with a 30 Watt (70.7 Volt) audio transformer (rotary switch tap selectable) with a good quality 5-1/4" loudspeaker and separate tweeter.
- Speaker system accepts 8 OHM or 70.7 Volt inputs.
- Weather-resistant design
- Speaker is polypropylene coned for longer life.

572W

Self Contained, Weather Resistant Mini-Speaker System

572W

SPECIFICATIONS

POWER:	40 Watts R.M.S. (On 8-Ohm setting)
FREQUENCY RESPONSE:	50 - 18,000 Hz.
INPUT SELECTOR:	70.7 and 8 Ohm
TRANSFORMER TAPS:	5, 10, 20, and 30 Watts
SENSITIVITY:	91dB (1W1M)
DIMENSIONS:	9"(22.9cm) high, 5-7/8"(15cm) wide, 5-1/8"(13cm) deep
AUDIO DISPERSION ANGLES:	Vertical, 90 Degrees, Horizontal, 90 Degrees
COLOUR:	White

ARCHITECTS AND ENGINEERS SPECIFICATIONS

MODEL 572-W

The mini-speaker shall be ARNSCOTT Model AEG 572-W. The unit shall measure 22.9cm (9") high, 13cm (5-1/8") deep, and 15cm (5-7/8") wide. There shall be 1 x 5-1/4" speaker mounted within the ported cabinet, along with a high efficiency 1" soft dome tweeter. The impedance of the unit shall be 8 ohms, or can be run from a 70.7 Volt audio line. The maximum power rating shall be 40 Watts R.M.S. at 8 Ohm, and the uniform frequency response shall be from 50 - 19,000Hz. The sensitivity of this unit shall be 91dB.(1W1M). The 70.7 Volt inputs are selectable at 5W, 10W, 15W, 20W and 30W. The vertical frequency coverage of this unit shall be 100 degrees, and the horizontal coverage shall be 100 degrees. The finish shall be white ABS plastic, with matching metal painted grille. U-Shaped mounting brackets are included, Optional swivel AEG Model SWB-2L(Black only), which are sold in pairs are available. These speakers are sold as each. This model is weather resistant and can be used for inside or outside applications. When ordering please specify AEG Model 572-W and for a more versatile mounting system, the AEG SWB-2L.
