E32-12 (2CU. FT)

E33-12 (3 CU. FT.)

E34-12 (4 CU. FT.)

E35-12 (6 CU. FT.)

### ARCHITECT'S AND ENGINEER'S SPECIFICATIONS

#### MODEL E32-12 / E33-12 / E34-12 / E35-12

The speaker enclosures shall be AEG Models \_\_\_\_ (as listed above) or approved equal. The back boxes shall be manufactured of 18 gauge cold rolled steel and shall have four 1/2" to 3/4" IPS electrical knockouts 90 degrees apart. The enclosure shall have a volume of \_\_\_\_ (see above) and the interior shall be loaded with 1 1/2" thick fiberglass with 1 1/2 lb./cu ft density. All back boxes are lined with acoustical board for better sound deadening properties. The removable front panel shall have an integral baffle mounting flange. The finish shall be black baked enamel electrostatically applied over steel which has been prepared with an iron phosphate coating prior to finishing. These back boxes are used with 12" speakers only (Optional). Back Boxes shall be used wherever a high quality, wide frequency response, high powered speaker system is installed. Typical installation requirements are high ceiling, larger space, better quality.

The grill (baffle) that is compatible with these back boxes is Model G51W-12.
